Third Quarter 2019 Highlights:

- Total revenue was €245.2 million (US\$267.4 million), representing an increase of 8% year-over-year. Excluding the impact of reimbursement revenue¹, total revenue was €242.5 million (US\$264.5 million), a 33% increase over the third quarter of 2018.
- Loss for the period was €31.2 million (US\$34.0 million), compared to a profit for the period of €13.1 million for the third quarter of 2018. Our performance was impacted by stock-based compensation expenses, the remaining IPO-related costs and the financing costs.
- Adjusted EBITDA was €39.3 million (US\$42.8 million) in the third quarter of 2019, substantially similar to the third quarter of 2018.
- The number of mass participation events expanded from 102 events in the third quarter of 2018 to 120 events in the third quarter of 2019. The number of gross-paid athletes also showed significant year-over-year growth of 37.5%, from 448,000 in the third quarter 2018 to 616,000 in the third quarter of 2019.
- The Group established a long term strategic partnership with the International Association of Athletics Federations (IAAF), including a new Diamond League media rights for five years from 2025, a ten-year international media rights agreement for a second international tour - a series of one-day meetings around the world from 2020; the future organization of an annual Diamond League meeting in China by the Group as well as the creation of a new annual IAAF event in China to be organized by the Group.
- Host broadcast productions for the FIFA Women's World Cup 2019™ in France and for the Rugby World Cup 2019 in Japan have been successfully delivered.
- The Group successfully delivered the commercial program of the FIBA Basketball World Cup 2019, serving as the exclusive partner for their worldwide sponsorship, merchandising, licensing and hospitality.
- A 10-year media, marketing, digital and merchandising rights prolongation has been extended with the International Ice Hockey Federation (IIHF), the governing body of international ice hockey organizing the annual IIHF Ice Hockey World Championship, through to 2033.

¹ See revenue discussion below for a description of the reimbursement revenue and its impact.

- Our net leverage ratio improved from June 30, 2019, which preceded our IPO and the use of proceeds to reduce leverage, to 4.2x at September 30, 2019.

Mr. Hengming Yang, Chief Executive Officer of Wanda Sports, commented, “We delivered solid operating results in the third quarter driven by the strong activity in our Spectator Sports segment, the addition of popular new events in our Mass Participation segment and our continued ability to leverage technology across our global platform to deliver a differentiated experience for our athletes, fans and partners. However, our near-term profitability has been impacted by the expenses in stock-based compensation, the remaining IPO-related costs and the financing costs, as we have previously mentioned. Notwithstanding these factors, we remain confident in the outlook of our business and our ability to continue to execute our strategy to create lasting shareholder value.”

Mr. Brian Liao, Chief Financial Officer of Wanda Sports commented, “Despite the cyclicity, we have delivered robust like-for-like revenue growth year-on-year, thanks to the expansion of our sports rights and event offerings in the third quarter. Our focus remains on reducing our debt, improving synergies across our group and taking full advantage of our asset light model and strong cash flow generation as we position Wanda Sports for long-term growth.”

Third Quarter 2019 Business Highlights

Core Business Segments

Mass Participation

Spectator Sports

The Spectator Sports business in the third quarter reflected the Group’s delivery of a number of world championships and large-scale regional events.

Key events

- The FIBA Basketball World Cup, FIBA’s flagship competition in 2019 which achieved a world record audience, was held in China for the first time, from August 31 to September 15. The Group successfully delivered the commercial program of the FIBA Basketball World Cup 2019, serving as the exclusive partner for their worldwide sponsorship, merchandising, licensing and hospitality.
- The CEV Men’s and Women’s European Volleyball Championships took place in August and September. The Group, as the CEV’s long-standing exclusive media rights partner, secured broadcasters in over 150 territories globally.

This was the 25th edition of the Badminton World Championships, which welcomed top players from around the world to Switzerland. The Group, BWF’s exclusive media and marketing partner, was responsible for a variety of deliverables, including sponsorship, media sales, client and broadcaster services.

Major Prolongations

- A 10-year media, marketing, digital and merchandising rights prolongation with IIHF, the governing body of international ice hockey which organizes the annual IIHF Ice Hockey World Championship, has extended its partnership with the Group until 2033, starting in 2024 (at the end of our current agreement) through 2033 was unanimously ratified by the IIHF Congress.

- A five-year agreement with Scottish Professional Football League (SPFL) media rights until 2024/25 has been extended, another addition to our world's leading football portfolio. The extended agreement also covers the development of a dedicated e-sports league for SPFL.

Key New Business Wins

- The Group established a long term strategic partnership with the International Association of Athletics Federations (IAAF), including a new Diamond League media rights for five years from 2025, a ten-year international media rights agreement for a second international tour - a series of one-day meetings around the world from 2020; the future organization of an annual Diamond League meeting in China by the Group as well as the creation of a new annual IAAF event in China to be organized by the Group.

Third Quarter 2019 Financial Results

Revenue

Total revenue was €245.2 million (US\$267.4 million), representing an increase of 8% year-over-year, primarily attributable to increase in revenue from our mass participation and spectator sports segments. Excluding reimbursement revenue², total revenue was €242.5 million (US\$264.5 million), a significant increase of 33% over the third quarter of 2018.

The following table sets forth a breakdown of our revenue by segment for the periods indicated:

(in millions, except percentages)	Three Months Ended September 30,					
	USD	2019 EUR	% of Revenue	EUR	2018 % of Revenue	YoY Change
Core segments:						
Mass Participation	123.7	113.4	46%	99.6	44%	14%
Spectator Sports	115.4	105.8	43%	58.7	26%	80%
DPSS	28.3	26.0	11%	69.1	30%	(62%)
Total Revenue	267.4	245.2	100%	227.4	100%	8%
<i>DPSS excluding reimbursement revenue</i>	<i>25.4</i>	<i>23.3</i>		<i>23.6</i>		<i>(1%)</i>
<i>Total Revenue excluding reimbursement revenue</i>	<i>264.5</i>	<i>242.5</i>		<i>181.9</i>		<i>33%</i>

² Cyclical driven by the timing cycle of sports events has a significant impact on the comparability of our results from one period to the next. In 2018, both total revenue and total cost of sales were also impacted due to media production activities in connection e.g. with the 2018 FIFA World Cup Russia™ accounted for in our DPSS segment. These activities are undertaken pursuant to our cost-plus contractual model under which both revenue and costs are fully accounted for in our consolidated statement of profit or loss, including reimbursement revenues and reimbursement costs.

- *Mass Participation*: The increase in revenue was principally driven by the increase in our total number of events, to 120 events for the third quarter of 2019 from 102 events for the third quarter of 2018. The number of gross-paid athletes also increased to 616,000 for the third quarter of 2019 from 448,000 in the same period last year.
- *Spectator Sports*: The increase in revenue was primarily due to the expansion of our summer sports portfolio, mainly the FIBA Basketball World Cup 2019, FIM MXGP Motocross World Championship races and the CEV EuroVolley 2019.
- *DPSS*: The decrease in revenue was due to event cyclicalities relating to the 2018 FIFA World Cup Russia™. Excluding reimbursement revenue, DPSS revenue was €23.3 million (US\$25.4 million) for the third quarter of 2019, approximately the same as the third quarter of 2018.

Gross profit

The following table sets forth a breakdown of our gross profit and our gross margin by segment for the periods indicated:

(in millions, except percentages)	Three Months Ended, September 30,					
	2019		2018		YoY Change in Gross Profit	
	USD	EUR	Gross margin	EUR		Gross margin
Core segments:						
Mass Participation	47.6	43.6	38%	37.9	38%	15%
Spectator Sports	35.3	32.4	31%	29.8	51%	9%
DPSS	9.6	8.8	34%	13.5	20%	(35%)
Total Gross Profit	92.5	84.8	35%	81.2	36%	4%

- *Mass Participation*: The increase in gross profit was principally driven by the increase in the number of events.
- *Spectator Sports*: The increase was primarily due to a higher profit contribution from the FIM MXGP Motocross World Championship races.
- *DPSS*: The decrease was primarily due to the event cyclicalities of the 2018 FIFA World Cup Russia™ relating to the media production business.

Gross margin, or gross profit as a percentage of revenue, was 35%, compared with 36% in the same quarter of 2018.

Personnel expenses were €53.3 million (US\$58.1 million), an increase of 35% year-over-year, primarily driven by stock-based compensation incurred during the period for €21.7 million (US\$23.6 million), which reflected the impact of the IPO on the valuation awards and the acceleration of vesting on outstanding grants in our subsidiary businesses.

Selling, office and administrative expenses were €15.0 million (US\$16.4 million) for the third quarter of 2019, compared with €11.7 million in the third quarter in 2018, primarily driven by IPO related expenses, higher third party service fees as well as additional travelling expenses for various international events.

Depreciation and amortization expenses were €7.7 million (US\$8.4 million), compared with €7.7 million in the third quarter in 2018.

Other operating expenses, net was €2.0 million (US\$2.2 million) compared with other operating income, net of €0.4 million in the third quarter of 2018, primarily due to the absence of other investment income during the current period.

Finance costs were €28.5 million (US\$31.1 million), compared with €9.8 million in the third quarter in 2018, primarily due to interest expense and make-whole amount during the period for the unsecured senior 364-day term loan facility which was entered in March 2019.

Income tax expenses were €10.3 million (US\$11.2 million), compared with €3.8 million for the third quarter of 2018. The increase was mainly due to additional tax expense arising from newly acquired companies in the current year, additional tax expenses related to prior year operating income as well as an increase in expenses that were not tax deductible such as share-based compensation expenses, or were unable to be recognized as deferred tax asset such as interest expense.

Loss for the period was €31.2 million (US\$34.0 million), compared to a profit for the period €13.1 million for the third quarter of 2018 primarily attributable to finance cost relating to our unsecured senior 364-day term loan facility; the stock-based compensation for our Management Equity Incentive Plan arise from IPO and the increase in income tax expenses.

Adjusted EBITDA was €39.3 million (US\$42.8 million) in the third quarter of 2019, substantially similar to the third quarter of 2018.

Net loss attributable to ordinary shareholders of Wanda Sports Group Company Limited was €31.3 million (US\$34.1 million), compared to a net profit attributable to ordinary shareholders of Wanda Sports Group Company Limited of €12.9 million for the third quarter of 2018.

Basic and diluted net loss per American Depositary Share (“ADS”) were both €0.23 (US\$0.25), compared to basic net income per ADS of €0.09 and diluted net income per ADS of €0.08 in the third quarter of 2018.

Cash and cash equivalents

As of September 30, 2019, the Group had cash and cash equivalents of €122.8 million (US\$133.9 million).

Fourth Quarter and full year 2019 Guidance

For the fourth quarter, we currently expect:

Total revenue to be in the range of €245 million to €260 million, or down 7% to 1% year-over-year.

Excluding reimbursement revenue, total revenue to be in the range of €242 million to €257 million, or down 7% to 1% year-over-year.

Adjusted EBITDA to be in the range of €44 million to €49 million, or down 9% to up 1% year-over-year.

For the full year 2019, we currently expect:

Total revenue to be in the range of €1,020 million to €1,035 million, or down 10% to 8% from 2018.

Excluding reimbursement revenue, total revenue to be in the range of €987 million to €1,002 million, or up 8% to 10% from 2018.

Adjusted EBITDA to be in the range of €167 million to €172 million, or down 15% to 12% from 2018.

Compared with 2018, total revenue and Adjusted EBITDA of 2019 are expected to be lower mainly due to event cyclicity in 2018.

The aforementioned guidance reflects our expectations for the fourth quarter and full year 2019 as of November 18, 2019. Our results are based on assumptions that we believe to be reasonable as of this date, but may be materially affected by many factors, as discussed below in the Forward-Looking Statements.

Use of Non-IFRS Financial Measures

To supplement our consolidated financial statements which are presented in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board (“IFRS”), we also use Adjusted EBITDA as a non-IFRS financial measure. We present this non-IFRS financial measure because it is used by our management in evaluating our operating results and for financial and operational decision-making purposes. We define Adjusted EBITDA as net income excluding share-based compensation and other non-recurring expenses. We also believe that this non-IFRS financial measure provides useful information to investors and others in understanding and evaluating our consolidated results of operations in the same manner as our management and in comparing financial results across accounting periods and to those of our peer companies.

Non-IFRS financial measures should not be considered in isolation or construed as an alternative to profit/(loss) from operations and net profit/(loss) or any other measure of performance, or as an indicator of our operating performance. Adjusted EBITDA may not be comparable to similarly titled measures presented by other companies. Other companies may calculate similarly titled measures differently, limiting their usefulness as comparative measures to our data. We encourage investors and others to review our financial information in its entirety and not rely on a single financial measure.

Reconciliation of Adjusted EBITDA and EBITDA, another non-IFRS financial measure, to the most directly comparable IFRS financial measure is set forth at the end of this release.

Exchange Rate Information

This press release contains translation of certain Euro (“€”) amounts into U.S. Dollar (“\$”) at specified rates solely for the convenience of readers. - Share-based compensation has been excluded as it is a non-cash expense. Our adjustment removes all of the historical share-based compensation for employees.
- Represents expenses incurred for professional fees such as legal counsel, auditors, underwriters, valuation experts and consultants in respect of the strategic acquisitions of the Group.
- Represents professional fees of legal counsel, auditors, due diligence experts, consultants, and related expenses for our IPO and financing.
- Represents expenses or costs incurred in the restructuring and disposal of investments and subsidiary companies. Following our acquisitions of Infront and WEH, we went through a restructuring process which involved divestment of certain investments and subsidiaries. Following the acquisition of CGI in 2017, WEH undertook a similar process. While event and contract performance reviews are performed as a normal course of business, these larger restructuring processes are considered non-recurring.
- Eliminates the impact from the extraordinary loss of certain rights-in partners following their insolvency.
- Eliminates the net investment loss on investments.
- Eliminates expenses reflecting expected credit losses in trade account receivables that we had outstanding from a sports marketing and media rights firm (MP & Silva) as well as contract assets, as a result of the initiation of MP & Silva's insolvency process.
- Represents the losses on foreign exchange, derivative financial instruments at fair value through profit or loss, termination of the cross-currency swap and other financial charges.
- Represents the amount estimated to be paid by Infront as compensation in connection with fraudulent activities presumably undertaken by a former senior employee of Infront, for which we have taken a revenue deduction in the three months ended September 30, 2019.
